

ENJOY RESTAURANT QUALITY COMFORTABLY AT HOME OFFICE

This is how quick and easy dinnery® works: Via the dinnery.de portal, customers from all over Germany can select dishes or menus individually and determine the desired delivery date. Our logistics partner conveniently delivers the dinnery® box to the desired address on the selected date. All the recipient has to do now is a quick finishing. Our lovingly designed preparation instructions help ensure that every menu works out perfectly. A small kitchen with a simple stove is enough to conjure up something special. dinnery® is a perfect alternative to visiting a restaurant after a business meeting in the home office - so that the social aspect is not neglected via video conference. It doesn't matter where in Germany your employees are: Our logistics partner will deliver the ideal culinary addition to your meeting in time.

WHAT DOES DINNERY® DO?

dinnery® replaces the cook. The fresh menus and individual dishes made from valuable raw materials can be consumed exclusively and individually at home after quick finalization.

WHY DINNERY®?

Fresh ingredients instead of convenience food: All dinnery® dishes are cooked with love and by hand. Our goal is to spoil customers at home with culinary delights in restaurant quality.

YOUR BENEFIT IN TIME OF CRISIS

The perfect addition to the business meeting in the home office - so that despite the video conference, the social aspect is not neglected. Because what strengthens team spirit more than eating together?

TODAY ...

... strengthen the team spirit and stick together in times of crisis: We supply all your colleagues individually and ensure good food ...

... no matter whether you finalize your menu together or network for dinner: All team members cooked quickly and easily ...

... even if cooking is not their strong suit. dinnery® enables everyone to enjoy restaurant quality together.

SOLUTION

WITH DINNERY WE OFFER A SERVICE THAT ENABLES PEOPLE TO ORDER ...

AND THE BEST IS ...

Due to the special cooking processes and the proven delivery structures (up to overnight), not only all vitamins and healthy ingredients are preserved.

We take over the time for peeling, snipping and cooking for your employees.

The menus only have to be finalized on site. Means: Briefly heat or finish frying/cooking according to the instructions.

THE RIGHT DISH FOR EVERY TASTE

We offer, as usual in the restaurant business, constantly changing, fresh dishes and variety. Regardless of whether you are a vegetarian or a meat lover: with dinnery®, each of your employees gets their own culinary treat.

WE COOK - YOU ENJOY

Especially in times of crisis it shows how flexibly a company can act and respond to the needs of the market, but above all of its employees.

Treat your employees to a great meal in the home office and give them the pleasure of restaurant quality.

We are happy to answer any further questions about our offer or take your order.

*With our idea, we were the first
on the market and will continue to be
one step ahead thanks to constant
future development.*
